Kitchen Design and Build by the Gridley Company

Kitchen Design and Remodel has been one of the Gridley Company's areas of expertise for over 34 years. Each one of our kitchen designers is certified and/or degreed in interior design, as well as having years of practical experience designing kitchens for your neighbors in Campbell, Saratoga, San Jose, Los Altos, Mountain View, Sunnyvale, Soquel, Santa Cruz and other Bay Area and Santa Cruz communities.

The Gridley Kitchen Design process involves you and our designer working closely together to ensure your new kitchen not only meets, but exceeds your expectations. A new kitchen is like fine clothing, it needs to fit perfectly so you're comfortable and feel at home. Therefore, at our initial meeting we get to know you; to get a feel for your lifestyle, your family, how you use your kitchen, your ideas for your new kitchen and your budget parameters.

You and your kitchen designer work closely during the entire design process to choose the right floor plan/layout, cabinetry, countertops, lighting, fixtures, faucets, hardware and the dozens of other unique elements that make up your new kitchen.

Gridley Company ensures a smooth building and remodeling process for your new kitchen through our design-build philosophy and practice. You work with a single point of contact from Gridley throughout the remodeling process. We take care of all product delivery, coordinating our staff electricians, plumbers, painters and other artisans who will bring your kitchen to life. President and founder, Linda Gridley wants you to relax so when the work is complete, you can enjoy your new kitchen with fond memories of an easy design build process.

We hope you enjoy the portfolio of kitchen designs we have selected for you (above). Please feel free to use these kitchens as reference points for ideas for your own new kitchen design – and call or email us to make an appointment to meet with Linda and discuss your project.

Also, as part of our remodel division we can now offer to reface your kitchen cabinets with factory made and finished cabinet doors and facing. Or perhaps you would just like your cabinets and counter tops replaced. We can do it all or just a few select items in your kitchen or bath.
