Bathroom Design and Remodeling by the Gridley Company

Your bathroom is truly a private place, a personal refuge in your home and therefore it should be designed and built exactly the way you want it. Degreed and bathroom designers at Gridley Company understand the intricacies that are involved in creating the perfect, personal bathroom design. They are experts at laying out the bathroom floor plan for function, as well as choosing the best shower, (spa) tub, cabinetry, vanities, fixtures and other materials to your taste and budget.

Gridley Company has been designing, building and remodeling bathrooms in the Bay Area, including Campbell, Saratoga, San Jose, Los Gatos, Aptos, Santa Clara, Los Altos, Soquel, Capitola and Santa Cruz for over 34 years. Gridley makes the bathroom design build process an easy one for the home owner by employing all the right people to get the job done – correctly.

Linda Gridley, president and founder, assures all clients that the in-house staff of bathroom designers, plumbers, electricians, and other artisans required to make your bathroom remodeling project perfect are all second to none in Northern California. This assurance allows you to relax during the renovation so you can escape in your new bathroom with only pleasant memories of your bathroom remodeling project.

We hope you enjoy the portfolio of bathroom designs we have selected for you (above). Please feel free to use these bathrooms for ideas for your own new bathroom design – and call or email us to make an appointment to meet with one of our bathroom designers.
