
Warranty

Gridley Company 2 Year Limited Warranty

With one of the industry's most generous warranties, the Gridley Company allows you to feel comfortable, knowing that we stand behind our work to protect your investment even after your remodeling project has been completed.

How can we afford to warranty our work for so much longer than our competitors? Because we stand behind the excellent quality of our projects and our materials. If we delivered anything less, we couldn't offer such a comprehensive warranty.

The specific details of our warranty will be explained to you in your construction agreement with us.

If something we build for you needs repair after its warranty expires, simply contact us. Either we will come to your home and fix the problem, or we will refer the problem to the appropriate manufacturer repair service.
